

AWAIS ALI

Lahore, Pakistan

+92 3064086446 ds.awaisali@gmail.com [linkedin.com/in/awaisali-bi](https://www.linkedin.com/in/awaisali-bi)

PROFESSIONAL SUMMARY

Business Intelligence Analyst with nearly 3 years of experience delivering data-driven insights through KPI dashboards, ETL pipelines, and automated reporting solutions. Skilled in Power BI, Looker Studio, SQL, Python, Excel, and Google BigQuery, building scalable BI systems that reduce manual reporting effort and improve decision-making. Experienced in data modeling, SQL optimization, ETL pipelines, and translating complex datasets into actionable business insights for executive and operational stakeholders across Education, Digital Marketing, E-commerce, Finance, and Supply Chain domains.

TECHNICAL SKILLS

BI & Visualization: Power BI (Desktop & Service), Looker Studio, Excel (Pivot Tables, Power Query)

Data Modeling: Star Schema, Fact & Dimension Modeling, KPI Design, Semantic Models

Programming: SQL, Python (Pandas, NumPy, Matplotlib), DAX, Power Query (M)

Databases & Cloud: SQL Server, MySQL, Google BigQuery, Google Cloud Platform (GCP)

BI Capabilities: Time Intelligence (YTD, MTD, YoY), Row-Level Security (RLS), Scheduled Refresh, Data Gateways, Dashboard Publishing

ETL & Data Integration: Microsoft Fabric, SSIS, Power Query, Google BigQuery, Data Pipelines, Data Warehousing

Soft Skills: Analytical Thinking, Problem Solving, Data Storytelling, Stakeholder Communication

PROFESSIONAL EXPERIENCE

Beaconhouse Group

Sep 2025 – Present

Assistant Manager Business Intelligence

Lahore

- Managed BI reporting pipelines across Looker Studio and Power BI, ensuring accuracy and accessibility of KPIs for executive decision-making.
- Designed and automated ETL processes in Google BigQuery, Python, and Power Query to streamline data integration from multiple sources, reducing manual reporting time by 40%.
- Managed and optimized Excel-based reports, building automated data refresh mechanisms that feed into dashboards for daily and monthly performance tracking.
- Collaborated with cross-functional teams to define business requirements and translate them into actionable insights, improving operational efficiency and decision-making.
- Implemented scalable BI practices by documenting processes, introducing governance frameworks, and mentoring junior analysts in data storytelling and dashboard design.

Kaswa.Ai (Remote)

Jun 2023 – Sep 2025

BI Developer

Lahore

- Built automated reporting pipelines and dashboards using Power BI and SQL to track marketing, sales, and operational KPIs.
- Designed interactive Power BI dashboards with drill-through capabilities and advanced DAX measures for executive reporting.
- Led ad-hoc SQL analysis and presented actionable insights to non-technical stakeholders to drive strategy decisions across teams.
- Developed customer reporting views and dashboard solutions to help teams analyze user behavior and engagement.
- Optimized SQL queries and data pipelines, reducing analysis time by 35% while maintaining data integrity.

PROJECTS

Supply Chain Analytics Dashboard | Power BI, SQL, DAX

- Designed star-schema dashboard with performance tracking for delivery operations and logistics KPIs.
- Optimized ETL workflows and reporting queries, reducing latency by 30% and improving operational efficiency.

Digital Marketing Analytics | Power BI, Python

- Built multi-touch attribution analysis to understand customer journeys and optimize marketing spend allocation.
- Performed channel performance analysis to identify high-performing marketing sources and improve campaign efficiency.

Sales Performance & Trend Analysis | Python, SQL

- Analyzed historical sales data to identify seasonal patterns and business performance trends.
- Built automated reporting scripts to support sales performance monitoring and decision-making.

Ecommerce & Finance Analytics | Power BI, SQL, Power Query

- Analyzed sales trends and customer purchasing behavior using interactive dashboards and reporting solutions.
- Optimized data refresh performance using query folding techniques, reducing refresh time by 30%.

EDUCATION

University of Management & Technology

Bachelors in Artificial Intelligence

2021 – 2025

Lahore, Pakistan

Relevant Coursework: Statistics, Machine Learning, Data Mining, Probability, Linear Algebra

Punjab Group of Colleges

Intermediate in Computer Science (ICS - Statistics)

2019 – 2021

Lahore, Pakistan

CERTIFICATIONS

Power BI Essential – LinkedIn Learning (Aug 2024)

Power BI Data Modeling with DAX – LinkedIn Learning (Aug 2024)

Microsoft Fabric: Dataflows & Data Storage – LinkedIn Learning (Aug 2025)

Microsoft SQL Server Essentials – LinkedIn Learning (Aug 2025)

SQL Server Integration Services (SSIS) – LinkedIn Learning (Feb 2025)
